

SANDHURST
— PRIMARY SCHOOL —

‘Aim High Be Happy’

Data Protection Policy

Policy Control	
Responsible Person:	Headteacher
Responsible Governors:	FGB
Approved by Governors:	November 2020
Date due for review:	November 2022

Our school policies are written with the objective of continuously improving the school in our aim of realising the school’s vision:

At Sandhurst Primary School, children come first and our priority is to deliver high quality teaching and learning whilst at the same time providing rich and truly enjoyable learning experiences for our community of children. Everything we do as a school is to ensure that the children achieve their very best; we are deeply aware that children only get one chance at their primary education and it is our job to ensure that they all reach for the highest levels of personal achievement and development. We want every child to be successful; to reach for success from the very first day that they join us and throughout their school lives so that when they leave us, they have a love of learning for the rest of their lives.

Our School Values

Sandhurst Primary School values

Enjoyment Challenge Friendship Independence Confidence Resilience

and all our stakeholders are encouraged to *reflect* upon their learning and their actions.

1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO) on the [GDPR](#) and the ICO's [code of practice for subject access requests](#).

It also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with regulation 5 of the [Education \(Pupil Information\) \(England\) Regulations 2005](#), which gives parents the right of access to their child's educational record.

3. Definitions

Term	Definition
Personal data	Any information relating to an identified, or identifiable, individual. This may include the individual's: <ul style="list-style-type: none">• Name (including initials)• Identification number• Location data• Online identifier, such as a username It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.
Special categories of personal data	Personal data which is more sensitive and so needs more protection, including information about an individual's: <ul style="list-style-type: none">• Racial or ethnic origin• Political opinions• Religious or philosophical beliefs• Trade union membership• Genetics

	<p>Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes</p> <ul style="list-style-type: none"> • Health – physical or mental • Sex life or sexual orientation
Processing	<p>Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying.</p> <p>Processing can be automated or manual.</p>
Data subject	<p>The identified or identifiable individual whose personal data is held or processed.</p>
Data controller	<p>A person or organisation that determines the purposes and the means of processing of personal data.</p>
Data processor	<p>A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.</p>
Personal data breach	<p>A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.</p>

4. The Data Controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Governing board

The governing board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO.

Full details of the DPO's responsibilities are set out in their job description.

The appointed **Data Protection Officer** for Sandhurst Primary School is: **Satswana Ltd.**
info@satswana.com tel. 01252 516898

5.3 Headteacher

The Headteacher acts as the representative of the data controller on a day-to-day basis.

5.4 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
 - If there has been a data breach
 - Whenever they are engaging in a new activity that may affect the privacy rights of individuals
 - If they need help with any contracts or sharing personal data with third parties

6. Data protection principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner

- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent (except for online counselling and preventive services).

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's record retention schedule.

8. Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

9. Subject access requests and other rights of individuals

9.1 Subject access requests – Right of Access

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period

- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests must be submitted in writing, either by letter, email or fax to the DPO. They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request they must immediately forward it to the DPO.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case- by-case basis.

9.3 Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

Examples of when a request may be considered complex:

- it involves retrieval and appraisal of information from multiple sources
- it involves the retrieval of large volumes of information for one data subject which are difficult to separate from information relating to other data subjects
- it is one in a series of requests from the same individual
- it involves the release of third party data for which consent has been refused or cannot be obtained

In these cases a 3 month deadline for responding to the request will apply. For complex requests likely to take over 1 month, the applicant will be notified of this within the initial 1 month period.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

Right to withdraw Consent

Individuals have the right to withdraw their consent to processing at any time.

Right of erasure

This right allows individuals to request that their personal data is deleted where there is no justification for its continued use. It only applies, however, when:

1. The data is no longer necessary for the reason(s) for which it was originally collected
2. The data subject provided consent for the school to process their data but has subsequently withdrawn this consent
3. That data subject has objected to the school processing their data and there are no overriding grounds for continuing to process it
4. The data was processed in breach of the GDPR i.e. it was unlawfully processed
5. There is a legal requirement to erase the data
6. The data was collected with parental consent when the data subject was a child and they no longer wish for their data to be held

The school will also decline a request for erasure:

1. When we have a legal obligation or it is part of our official authority to process the data
2. For public health reasons
3. For certain archiving activities
4. When we need the data in connection with a legal claim

Right to rectification

If data subjects believe that any of the personal data the school holds about them is inaccurate or incomplete they are entitled to ask for it to be rectified. This will be looked at in the context of why the school is processing the information any necessary steps will be taken to supplement the information held in order to make it complete.

Right to restriction

In certain circumstances data subjects have a right to request that we temporarily restrict processing and access to their data. This will apply:

1. Whilst establishing accuracy of data, if a data subject has contested this
2. Whilst we follow up any objection raised by a data subject to the school processing their data.
3. When data has been processed unlawfully but the data subject does not want us to erase it and have asked, instead, for us to restrict processing of the data.
4. When we no longer need the data but the data subject has advised us that they need it in connection with a legal claim.

The right to restrict data doesn't apply if:

1. The processing is necessary for the school in connection with a legal claim
2. It is necessary for the protection of another person
3. There are substantial public interest reasons for continuing to process the data

Right to portability

Data subjects have a right to request that their data be transferred electronically to another organisation.

This only applies when:

1. The data subject themselves supplied the information and provided consent for the processing; or
2. The data is being processed as part of a contract to which the data subject is party; and
3. The data is held electronically (not in paper files)

Right to object

Data subjects have the right to object to their information being processed in the following circumstances:

- If the school has decided that processing is necessary either to
 - a) perform a task carried out in the public interest or
 - b) as part of the school's official authority or legitimate interest and the data subject feels this is not applicable.

Information about why the school is processing information (the legal justification) can be found in the school's privacy notice.

- If the school retains information in defence or potential defence of a legal claim but the data subject believes there are insufficient grounds to do so.

Data subjects also have a right to object to their data being used for direct marketing purposes at any time and the school will cease processing for this purpose if an objection is raised.

If the school uses IT systems to make automatic decisions based on personal data individuals have a right to object and:

- request human intervention in the decision making
- be able to express their point of view
- obtain an explanation of how a decision has been reached
- challenge the decision

This right does not exist if the automated decision making:

- is necessary to fulfil a contract to which they are party
- is authorised by law
- the data subject has consented to the processing

Individuals also have the right to object to data being used for research purposes unless the research is being undertaken in the wider public interest which outweighs a data subject's right to privacy.

Right to be Informed

The school issues a privacy notice which explains what information the school is processing, the legal basis for this, the purpose of processing, who the information is shared with and other information required by data protection legislation. The current privacy notice is available on the school's website www.sandhurstprimary.kent.sch.uk or on request from the School Office Tel. 01580 211365 office@sandhurst.kent.sch.uk

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

10. Parental requests to see the educational record

Parents, or those with parental responsibility, have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of a written request.

11. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to Amanda Norman, Headteacher.

12. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil.

We will obtain written consent from parents/carers, or pupils aged 18 and over, for photographs and videos to be taken of pupils for communication, marketing and promotional materials.

Where we need parental consent, we will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil. Where we don't need parental consent, we will clearly explain to the pupil how the photograph and/or video will be used.

Uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our **Images Policy** for more information on our use of photographs and videos.

13. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)

- For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure

14. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from the school office
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (see our online safety policy/acceptable use agreement)
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

15. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

16. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches. In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium

- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils

17. Training

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

18. Monitoring arrangements

The DPO advises the Governing Body who are responsible for monitoring and reviewing this policy.

This policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice. Otherwise, or from then on, this policy will be reviewed **every 2 years** and shared with the full governing board.

Note: the 2-year review frequency here reflects the information in the [Department for Education's advice on statutory policies](#). While the GDPR and Data Protection Act 2018 (when in place) are still new and schools are working out how best to implement them, you may wish to review your data protection policy annually, and then extend this to every 2 years once you are confident with your arrangements.

19. Links with other policies

This data protection policy is linked to our:

- Freedom of information publication scheme
- Online Safety Policy
- Acceptable Use of ICT Agreements
- Safeguarding and Child Protection Policy
- Images Policy

Appendix 1: Personal data breach procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people
- The DPO will alert the Headteacher and the Chair of Governors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the school's computer system in a restricted access drive.
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#) within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned

- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)
- Records of all breaches will be stored on the school's computer system in a restricted access drive.
- The DPO and Headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible.

Implementation

The Head Teacher/DPO should ensure that staff are aware of the School's Data Protection policy and its requirements including this breach procedure. This should be undertaken as part of induction, supervision and ongoing training. If staff have any queries in relation to the School's Data Protection policy and associated procedures, they should discuss this with their line manager, DPO or the Head Teacher.

Appendix 2: Data Breach Record

Data Protection Breach Record

Date: _____ / _____ / _____	Person Responsible for dealing with Breach: _____

Re: Subject Access Request

Dear **Satswana Limited**

Please provide me with the information about me that I am entitled to under the General Data Protection Regulation. This is so I can be aware of the information you are processing about me, and verify the lawfulness of the processing.

Here is the necessary information:

Name	
Relationship with the school	Please select: Pupil / parent / employee / governor / volunteer Other (please specify):
Correspondence address	
Contact number	
Email address	
Details of the information requested	Please provide me with: <i>Insert details of the information you want that will help us to locate the specific information. Please be as precise as possible, for example:</i> <ul style="list-style-type: none">• <i>Your personnel file</i>• <i>Your child's medical records</i>• <i>Your child's behavior record, held by [insert class teacher]</i>• <i>Emails between 'A' and 'B' between [date]</i>

If you need any more information from me, please let me know as soon as possible.

Please bear in mind that under the GDPR you cannot charge a fee to provide this information, and in most cases, must supply me with the information within 1 month.

If you need any advice on dealing with this request, you can contact the Information Commissioner's Office on 0303 123 1113 or at www.ico.org.uk

Yours sincerely,

Name

Appendix 4

Exemplar actions to minimise the impact of data breaches

We will take actions to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. Below are some examples of actions that could be taken. We will review the effectiveness of these actions and amend them as necessary after any data breach. In the event of any breach, our DPO will provide advice and support with all actions required.

Sensitive information being disclosed via email (including safeguarding records)

- If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it
- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted

Details of pupil premium interventions for named children (or similar types of personal data) being published on the school website

- If special category data (sensitive information) is accidentally made available via the School Website, the discoverer must alert the Headteacher or another SLT member who are all Website Administrators, to remove the data immediately and alert the DPO
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted
- The DPO will work with the Headteacher to review who has access to edit the website and how personal data was published in this case. The review will consider access control for the website and the review of all data prior to publishing on the website by a member of the SLT.

A school laptop, hard disc drive or USB drive containing non-encrypted sensitive personal data being stolen or hacked

- Laptop / Drive holder to immediately alert the DPO and Headteacher
- DPO / Headteacher to identify the nature and scope of the data involved, through employee interview, searches of e-mail / back up archives and any other action necessary
- DPO to provide advice to Headteacher / SLT on implications of potential data breach.

- DPO to work with Headteacher to establish if device user should be subject to a staff disciplinary procedure
- DPO to work with Headteacher, Network Manager and wider SLT to review device data security and ensure that all employees are aware of the Data Protection and Acceptable Use Policies.
- Audit of all establishment portable devices to be undertaken (Laptops / Tablet Devices / Portable Hard Disc Drives and USB Drives to establish that they are all password protected and all data is encrypted. All devices to be checked for sensitive personal data. Non-compliant devices to be withdrawn from use and replaced by compliant devices.
- In the case of a Hack, the DPO must report this to Action Fraud UK. SLT to work with the School Network Manager and ICT Consultants to improve device / network security to reduce the likelihood of a reoccurrence.

Non-anonymised pupil data or staff pay information being shared with governors

- DPO / Headteacher to identify source of the data
- Member of Staff who provided the data to be subject to disciplinary procedure and to be given further Data Protection training with regard to personal data
- Clerk to Governors to ensure that all documents are checked prior to Governors having access to them and to alert the Headteacher to any personal data content before they are sent out.
- DPO to contact all Governors to ensure that they delete the relevant document/s and / or return any hard copies to the School for secure destruction.

The school's cashless payment provider being hacked and parents' financial details stolen

- DPO to contact provider to establish data loss extent
- DPO to ensure the provider has contacted all parents to ensure that all parents are aware and should alert their bank / building society accordingly
- DPO to maintain contact with the provider to ensure an interim system is established to pay for meals e.g. cash / cheque to maintain service
- DPO to maintain dialogue with provider during their investigation and to have reasonable assurance that any new or modified payment system is protected against a similar hacking
- Headteacher to review contract with provider at an appropriate time; if provider is deemed to be in breach of contract and has not taken sufficient or timely corrective action, it may be appropriate to re-tender the contract.
