5.2 Vulnerable Learners

- Sandhurst Primary School recognises that any learner can be vulnerable online, and vulnerability can fluctuate depending on their age, developmental stage and personal circumstances.  - Non-consensual sharing of sexual images and videos

 - If a criminal offence has been committed, the DSL (or deputy) will discuss this with the police first to ensure that investigations are not compromised.
 - review the handling of any incidents to ensure that best practice was implemented, and policies/procedures are appropriate.
- Sandhurst Primary School recognises that internet brings the potential for the impact of any sexual violence and sexual harassment concerns to extend further than the local community, and for a victim or alleged perpetrator to become marginalised and excluded by online communities.
- Sandhurst Primary School recognises the potential for repeat victimisation in the future if abusive content continues to exist somewhere online.
- To help minimise concerns, Sandhurst Primary School will ensure that all members of the community are made aware of the potential social, psychological and criminal consequences of online sexual violence and sexual harassment by implementing a range of age and ability appropriate educational methods as part of our curriculum.

- implement appropriate sanctions in accordance with our behaviour policy but taking care not to further traumatise victims where possible.
- consider the deletion of images in accordance with the [UKCIS](#) guidance.
 - Images will only be deleted once the DSL has confirmed that other agencies do not need to be involved and are sure that to do so would not place a child at risk or compromise an investigation.
- review the handling of any incidents to ensure that best practice was implemented; the leadership team will also review and update any management procedures, where necessary.

Using the AUP Templates: Guidance Notes

Education leaders should ensure their policies and procedures are in line with statutory requirements. '[Keeping Children Safe in Education](#)' (KCSIE) 2020 states that schools and colleges should have a '*staff behaviour policy (sometimes called the code of conduct) which should, amongst other things, include acceptable use of technologies, staff/pupil relationships and communications including the use of social media*'.

This document will support educational settings in creating Acceptable Use Policies (AUP) which are relevant to their communities and reflects the needs and abilities of learners and technology available.

Leaders, managers, and DSLs should adapt the content to include specific local information such named points of contact, as well as specific procedures and expectations. These decisions and details will vary from setting to setting, so this template should be used as a starting framework. It will not be appropriate for educational settings to adopt the templates in their entirety; DSLs and leaders should ensure unnecessary content is removed.

- **Blue font** indicates that the setting should insert relevant information
- **Pink font** highlights suggestions to assist DSLs, leaders and managers in amending sample statements and ensuring content is appropriate for their setting. This content is provided as guidance notes and should not be left in individual settings policies

Key Points

- AUPs should be recognised by educational settings as part of the portfolio of safeguarding policies and as part of the settings code of conduct and/or behaviour policies.
- AUPs are not technical policies and as such should fall within the role and responsibilities of the Designated Safeguarding Lead (DSL) with approval from SLT.
 - The DSL is likely to require advice and support from other staff within the setting to ensure the AUP is robust and accurate, for example technical staff, therefore leaders should ensure that time is allocated to ensure this takes place.
- Where possible and appropriate, learners, staff and parents/carers should be directly involved in the creation and updating of AUPs.
- AUPs should be reviewed on an at least annual basis and updated following any substantial policy or technology changes locally or nationally; this will be especially important following closures in respond to the Covid-19 pandemic.
- Leaders should consider how they evidence that all members of the community have read and understood policies e.g. keeping copies of signed agreements, publishing AUPs on the Sandhurst Primary School website/intranet.
- Educational settings should ensure AUPs are individualised for their specific context; settings will need to adapt the templates in line with their own technology use, for example the expectations or requirements may vary if settings use laptops or tablets.

Updated content for 2020

The core content within the AUP template for 2020 has been updated and remains much the same as 2019. However, additional content has been included regarding remote learning following the updates to KCSIE 2020 and the DfE [‘Safeguarding and remote education during coronavirus \(COVID-19\)’](#) guidance; this content is highlighted in yellow.

In response to the potential requirement for schools and settings to continue to offer remote learning following full or partial school closures, this document has been updated with a remote learning AUP for staff and learners. The remote learning AUP can either be a standalone AUP or can be integrated within existing AUPs according to settings individual preferences.

Sample Parent/Carer Acceptable Use of Technology Policy

Issues for learning could be created if parents/carers refuse to sign and agree an AUP as children need to use the internet to access the curriculum. If settings opt to request permission before online access, setting should have a robust process in place to manage and record parental responses. Settings will need to engage with parents/carers who do not respond or refuse to agree the AUP. Alternatives include highlighting online safety within the Home School Agreement and/or using an AUP acknowledgement form.

If settings opt to use this approach, they should attach a copy of an age appropriate AUP to this form. Settings may need to provide parents with updated versions of the AUP as learners progress through the setting.

1. I know that my child will be provided with internet access and will use a range of IT systems including **Microsoft Teams** in order to access the curriculum and be prepared for modern life whilst at Sandhurst Primary School.

I understand that the Sandhurst Primary School will take every reasonable precaution, including monitoring and filtering systems, to ensure that learners are safe when they use the Sandhurst Primary School internet and systems. I understand that the Sandhurst Primary School cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.
5. I understand that my child needs a safe and appropriate place to access remote learning if Sandhurst Primary School is closed in response to Covid-19. Acceptable Use of Technology for Staff, Visitors and Volunteers Sample Statements

Staff Acceptable Use of Technology Policy

As a professional organisation with responsibility for safeguarding, all members of staff are expected to use Sandhurst Primary School name IT systems in a professional, lawful, and ethical manner. To ensure that members of staff understand their professional responsibilities when using technology and provide appropriate curriculum opportunities for learners, they are asked to read and sign the staff Acceptable Use of Technology Policy (AUP).

Our AUP is not intended to unduly limit the ways in which members of staff teach or use technology professionally, or indeed how they use the internet personally, however the AUP will help ensure that all staff understand Sandhurst Primary School name expectations regarding safe and responsible technology use, and can manage the potential risks posed. Occasional personal use of the settings devices could be considered as beneficial to the development of staff IT skills and can enable staff to maintain a positive work-life balance. Template Acceptable Use Policy (AUP) for Remote Learning and Online Communication

These templates specifically address safer practice when running formal remote learning, including live streamed sessions, but can also apply to other online communication, such as remote parent meetings or pastoral activities. There is no expectation that staff should run formal live streamed sessions or provide pre-recorded videos; settings should implement the approaches that best suit the needs of their community and staff following appropriate discussions.

This content can either be used to create a standalone AUP or can be integrated into existing documents according to setting preference.

A remote learning AUP should be completed following a thorough evaluation of remote learning tools with approval from leadership staff. We recommend settings use existing systems and/or education focused platforms where possible, and that staff only use approved accounts and services to communicate with learners and/or parents/carers.
