

Our agreed consistencies for DT:

Every class will have access to a minimum of one food technology lesson per year from our Cornerstones curriculum.

Design Technology will be delivered using our meticulous Cornerstones curriculum to ensure precise progression of skills and knowledge between year groups.

Children are taught the procedure of investigation and planning, creating and then evaluating their projects.

All children have a DT folder to record their learning.

If you were to walk into a DT lesson at Sandhurst you would see:

High levels of intrigue and enjoyment.

Age-appropriate challenge in written and practical work.

Space for creative expression and individuality.

Adult support throughout all areas of the learning.

In our DT curriculum you will see that we value inclusion and diversity:

Children's work is celebrated and where possible displayed or photos shared with parents.

A range of lesson activities offer opportunity for inclusion for all children.

Additional support is provided for all children where needed.
